

# Census Data for Transportation Planning

*Preparing for the Future*

May 11–13, 2005  
The Beckman Center, Irvine, California

## Call for Posters

**Proposals Due January 21, 2005**

Posters are sought for a Transportation Research Board (TRB) conference on the applications of Census 2000, CTPP 2000, and the American Community Survey (ACS) data. “Census Data for Transportation Planning: Preparing for the Future” convenes May 11–13, 2005 in Irvine, California, to assess transportation use of the decennial census and to review the potential of the ACS as a replacement for the decennial census “long form” for transportation planning.

In preparing posters, authors should address the following questions:

- What census data were used?
- How were the data used?
- What value was achieved?
- What problems or issues were encountered with the data?

Topics of interest include

- Descriptive analysis and reporting (trend analysis);
- GIS analysis;
- Travel modeling and microsimulation;
- Survey weighting and adjustment;
- Public involvement; and
- Special studies using census data:
  - Environmental justice,
  - Transit service planning,
  - Homeland security,
  - Emergency preparedness planning,
  - Bikes and pedestrians,
  - Alternative analysis, and
  - Corridor planning and major investment studies.

*(continued on next page)*

May 11–13, 2005

Abstracts for posters should be submitted by January 21, 2005, to [www.TRB.org/Conferences/CensusData/Submission](http://www.TRB.org/Conferences/CensusData/Submission).

Posters should follow TRB guidelines (<http://www4.nas.edu/trb/annual.nsf/web/posters>) and should not promote products, names, or logos. Participants may bring and use computers. Limited travel support is available for qualifying public-sector poster presenters.

The conference takes place Wednesday, May 11, through Friday noon, May 13, 2005, at the Beckman Center in Irvine, California. Authors will be notified in late February and will be required to submit an electronic version to the Conference Committee by April 19, 2005.

Additional information about the conference is available at [www.TRB.org/conferences/censusdata/](http://www.TRB.org/conferences/censusdata/), or contact Tom Palmerlee ([tpalmerlee@nas.edu](mailto:tpalmerlee@nas.edu), 202-334-2907) or Brian Canepa ([bcanepa@nas.edu](mailto:bcanepa@nas.edu), 202-334-2966).
